Théo Michelot

The Observatory, Buchanan Gardens ⋄ St Andrews KY16 9LZ, UK
tm75@st-andrews.ac.uk

EDUCATION

PhD in Statistics *2016-2019*
University of Sheffield, UK
Thesis: Stochastic models of animal movement and habitat selection

MSc in Mathematical and Software Engineering *2010-2015*
INSA de Rouen, France

RESEARCH EXPERIENCE

Postdoctoral research fellow *Since February 2019*
University of St Andrews, UK
Development of flexible continuous-time stochastic processes with applications in ecology

Research placement *July-December 2015*
University of St Andrews, UK
Development of an R package for the analysis of ecological data with hidden Markov models

Research placement *June-September 2013*
University of St Andrews, UK
Analysis of ecological and financial data with hidden Markov models

PUBLICATIONS

17. **Michelot, T.**, Glennie, R., Harris, C., Thomas, L. (2021). Varying-coefficient stochastic differential equations with applications in ecology. *Journal of Agricultural, Biological and Environmental Statistics*, 26 (3), pp. 446-463.
Selected for invited session at the Joint Statistical Meetings 2022.

IN PREPARATION

Klappstein, N.J., Potts, J.R., **Michelot, T.**, Pilfold, N.W., Börger, L., Lewis, M.A., Derocher, A.E. Energy selection functions: modelling the energetic drivers of animal movement and habitat use. *Authorea preprint*, DOI: 10.22541/au.160640483.30543006.
Resubmitted to Journal of Animal Ecology after revision.

Glennie, R., Adam, T., Leos Barajas, V., **Michelot, T.**, Photopoulou, T., McClintock, B. Hidden Markov models: pitfalls and opportunities in ecology.
Resubmitted to Methods in Ecology and Evolution after revision.

Michelot, T., Glennie, R., Quick, N., Harris, C., Thomas, L. Continuous-time modelling of behavioural responses in animal movement.

Glennie, R., **Michelot, T.** hmmTMB: an R package for flexible hidden Markov models with non-parametric and random effects.

Invernizzi, E., **Michelot, T.**, Ng, N., Macqueen, E., Rouviere, A. and Sasaki, T. Using hidden Markov models to study ant collective behaviour: self-organised building activity regulated through a feedback loop.

SOFTWARE

I have developed several software packages for the R programming language, including:

- **moveHMM**: Analysis of animal movement data with hidden Markov models. Available on CRAN: `cran.r-project.org/package=moveHMM`. Lead developer and maintainer.
- **momentuHMM**: Analysis of multivariate ecological data with hidden Markov models (extension of moveHMM). Available on CRAN: `cran.r-project.org/package=momentuHMM`. Co-developer.
- **hmmTMB**: Hidden Markov models with non-parametric and random effects. Available on Github: `github.com/r-glennie/hmmTMB`. Joint lead developer and maintainer.
- **smoothSDE**: Varying-coefficient stochastic differential equations. Available on Github: `github.com/TheoMichelot/smoothSDE`. Lead developer and maintainer.

BOOK CHAPTERS

Antinori P., **Michelot T.**, Lescuyer P., Müller M., Acosta-Martin A.E. (2019)
Detection of unknown chemical adduct modifications on proteins: from wet to dry laboratory
In: Evans C., Wright P., Noirel J. (eds), Mass Spectrometry of Proteins
Methods in Molecular Biology, vol 1977. Humana Press, New York, NY.

TEACHING

Guest lecturer

- MT4113 Computing in Statistics, University of St Andrews *Fall 2019*
- Ecological Modelling, University of Lisbon *Fall 2019*

Teaching training *Fall 2019*

Academic Staff Development Programme, University of St Andrews

- Assessment and feedback (half-day workshop)
- Effective lecturing (half-day workshop)

Workshop lecturer and demonstrator

Hidden Markov models for animal movement and other ecological data

- Two-day workshop in St Andrews, UK. *August 2017*
- Three-day workshop in Mossel Bay, South Africa. *March 2016*

Tutorial demonstrator and marker *2016-2018*

University of Sheffield

- MAS113 Introduction to Probability and Statistics (first year)
- MAS275 Probability Modelling (second year)
- MAS223 Statistical Inference and Modelling (second year)
- MAS6002 Statistical Laboratory (MSc)

STUDENT SUPERVISION

MSc research placements

Carlina Feldmann (U. of St Andrews, with Theoni Photopoulou) *October-November 2019*
Topic: *Spatially-explicit models of animal movement for acoustic detection data*

Hugo Hervé (U. of St Andrews, with Len Thomas and Richard Glennie) *June-August 2019*
Topic: *Simulation study of multiple imputation techniques for the application of hidden Markov models to irregular and noisy telemetry data*

Honours projects
Mairi McHale (U. of St Andrews, with David Borchers) *2019-2020*
Topic: *Analysis of snow leopard movement data using hidden Markov models*

Student examination
Bantu Halam (U. of Cape Town, Department of Statistical Sciences) *September 2019*
External examiner for MSc thesis: *Mining a large shopping database to predict where, when, and what consumers will buy next*

AWARDS

Young Biometrician Award – honourable mention *2021*
For "*Inference in MCMC step selection models*" (Michelot et al., 2020)
International Biometric Society (British and Irish Region) and Fisher Memorial Trust

Best student talk award *2016*
International Statistical Ecology Conference

PRESENTATIONS

hmmTMB: hidden Markov models with non-parametric and random effects
Talk at the meeting of the National Centre for Statistical Ecology, online. June 2021.

Time-varying diffusion processes in movement ecology
Talk at the virtual International Statistical Ecology Conference, online. June 2020.

Linking scales of animal movement using statistical samplers
Invited seminar at the University of Alberta, Edmonton, Canada. March 2020.

Behavioural response studies of beaked whales using accelerometer data and diffusion models
Talk at the British Ecological Society conference, Belfast, UK. December 2019.

Spline-based diffusion models and application to accelerometer data
Invited seminar at the University of Glasgow, UK. November 2019.
Seminar at the University of St Andrews, UK. November 2019.

Hidden Markov models of animal movement and behaviour
Invited seminar at the University of Lisbon, Portugal. November 2019.
Invited talk at the congress of Soc. Portuguesa de Estatistica, Amarante, Portugal. November 2019.

Modelling animal movement and habitat selection across scales
Invited talk at the annual meeting of the BES movement ecology group, Sheffield, UK. July 2019.

The Langevin diffusion as a model of animal movement and habitat selection
Talk at the meeting of the National Centre for Statistical Ecology, Edinburgh, UK. June 2019.

Modelling animal movement and habitat selection across scales
Invited seminar at the School of Biosciences of the University of Cardiff, UK. March 2019.

Analysing telemetry data with hidden Markov models
Invited seminar at the Duke University Marine Lab, Beaufort, USA. March 2019.

Do animals move like statistical samplers?
Talk at the Research Students' Conference in Statistics and Probability, Sheffield, UK. July 2018.

Markov chain Monte Carlo as a model of animal movement and space use
Talk at the International Statistical Ecology Conference, St Andrews, UK. July 2018.

moveHMM and momentuHMM – Analysing animal movement in R
Invited tutorial at the moving2gather meeting, Montpellier, France. December 2017.

Can animals do MCMC? Linking resource selection and step selection models
Poster at the Bio-logging symposium, Konstanz, Germany. September 2017.

From movement to space use
Flash talk at the BES movement ecology group meeting, London, UK. July 2017.

momentuHMM: an R package for the analysis of general telemetry data using hidden Markov models
Talk at the EURING meeting, Barcelona, Spain. July 2017.

Can animals do MCMC? Integrating resource selection and step selection
Talk at the meeting of the National Centre for Statistical Ecology, Canterbury, UK. June 2017.

Analysing animal movement data with moveHMM – Conservation action plan for the wild haggis
Talk at the International Statistical Ecology Conference, Seattle, USA. June 2016.
Best student talk award

Multistate Ornstein-Uhlenbeck processes for modelling animal movement
Talk at the Research Students' Conference in Probability and Statistics, Dublin, Ireland. June 2016.

moveHMM: an R package for modelling animal movement with hidden Markov models
Seminar at the Australian Antarctic Division, Hobart, Australia. June 2016.
Seminar at the Sea Mammal Research Unit, St Andrews, UK. November 2015.

A statistical introduction to animal movement modelling
Talk at the German Statistical Week, Hamburg, Germany. September 2015.

COMMUNITY INVOLVMENT

Associate Editor *Since 2021*
Journal of Statistical Theory and Practice

Reviewer
Advances in Statistical Analysis (2020), *Animals* (2019), *Ecography* (2018), *Ecological Applications* (2017), *Ecological Monographs* (2019), *Ecology and Evolution* (2016, 2017), *Ecology Letters* (2019), *Emu - Austral Ornithology* (2018), *Fish and Fisheries* (2021), *Journal of Agricultural, Biological, and Ecological Statistics* (2017, 2018), *Journal of Animal Ecology* (2019), *Journal of Mammalogy* (2018), *Journal of Zoology* (2019), *Methods in Ecology and Evolution* (2016, 2017×3, 2018, 2021), *Movement Ecology* (2016×3, 2019, 2020×3), *Nature Ecology & Evolution* (2020), *Plos One* (2018), *Scientific Reports* (2018, 2019), *Sensors* (2021).

Early career researcher representative *Since 2019*
Executive committee of the National Centre for Statistical Ecology, UK

Seminar organiser *Since 2021*
National Centre for Statistical Ecology seminar series

OTHER SKILLS

Programming	R (including Rcpp, Stan, TMB), C++, Python
Tools	git, Latex, R development tools (devtools, unit testing, profiling, documentation)
Languages	French, English
